

6 Lake Geneva 82.3 miles 2545' Flat to 'Granny Gear' Hilly

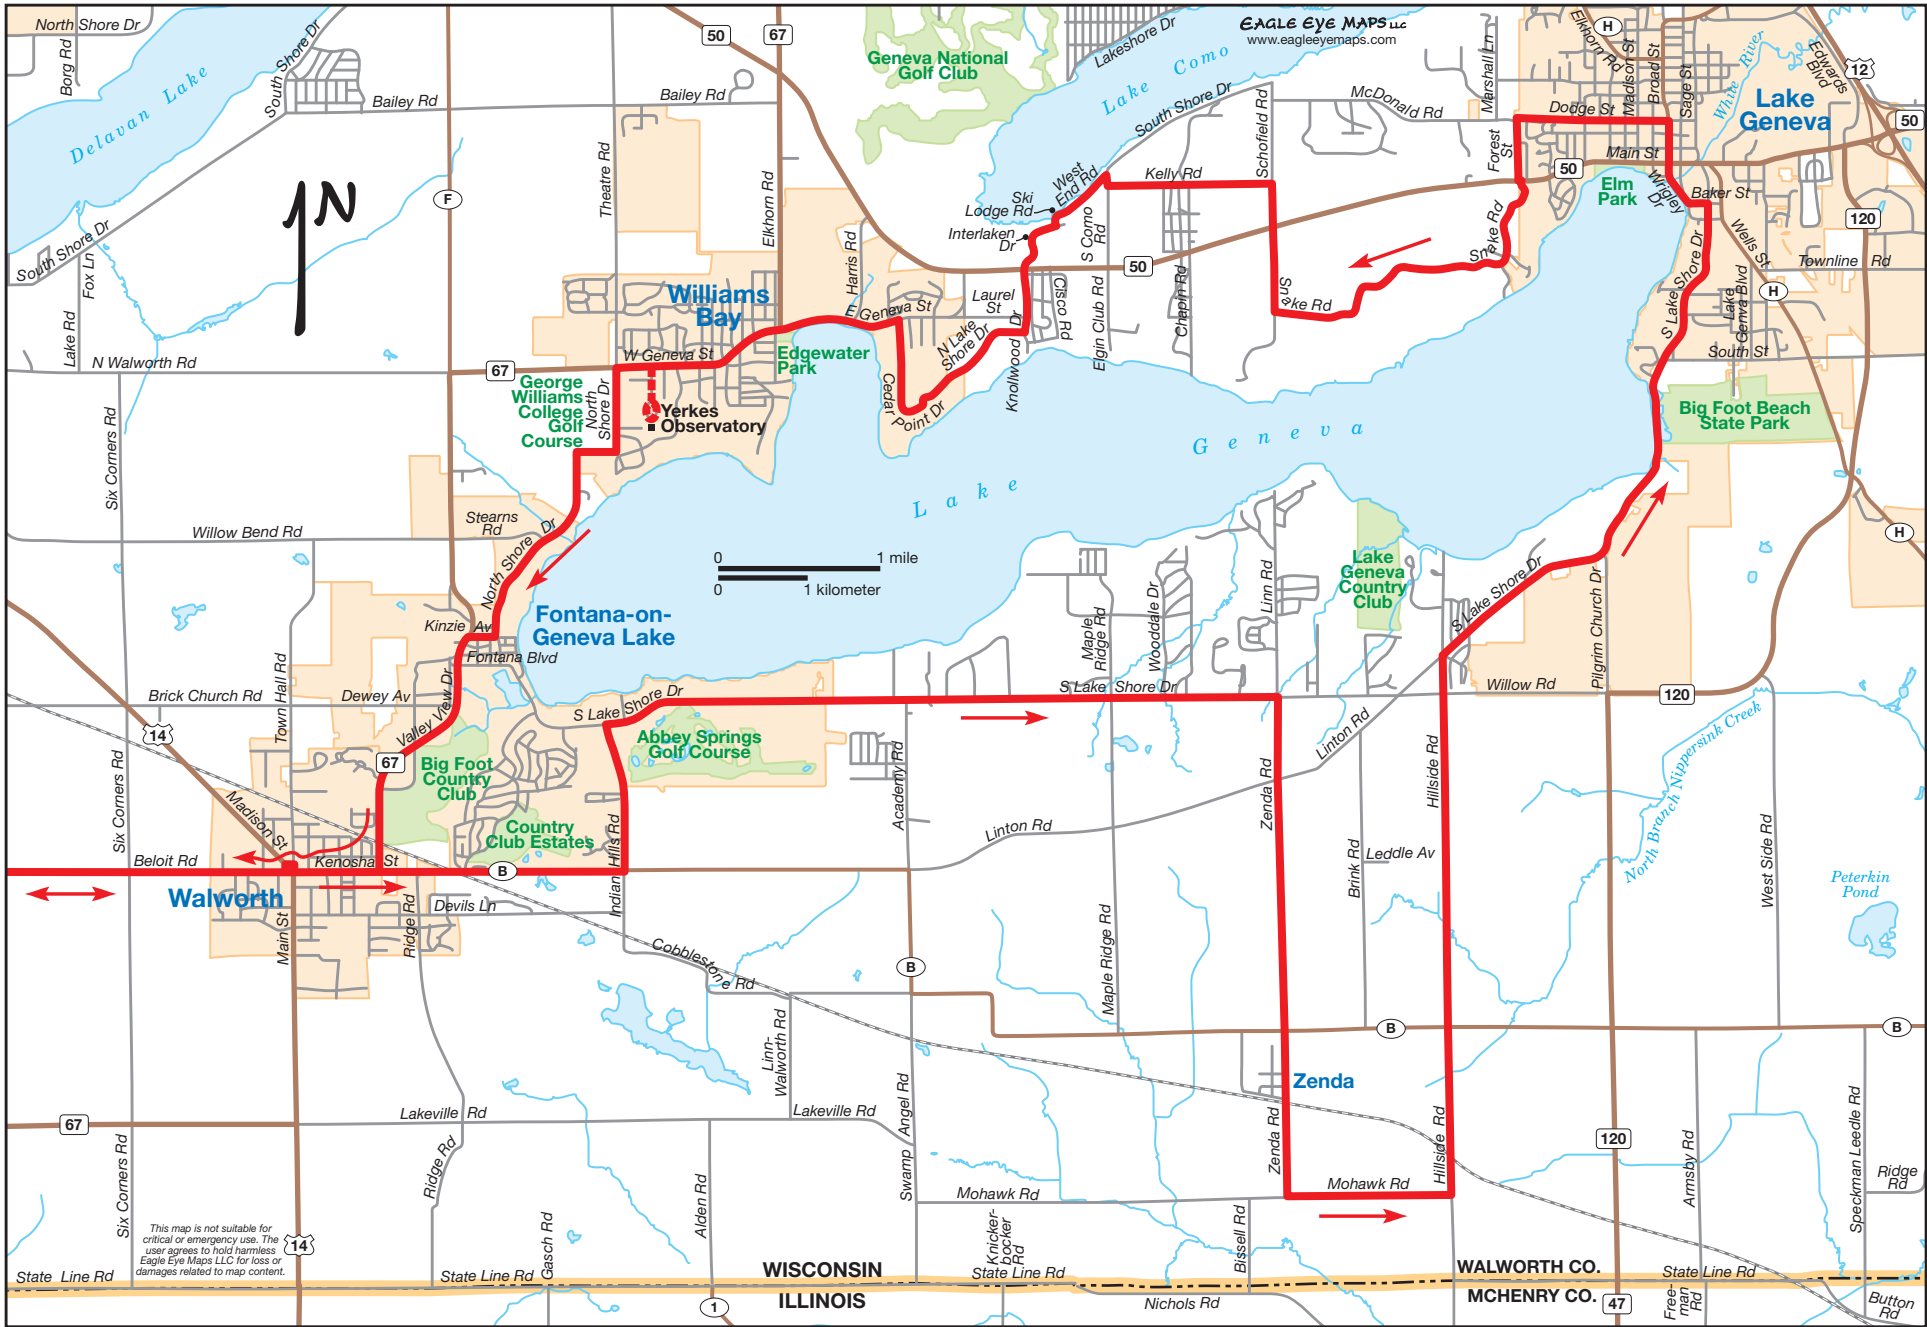

This trail is approximately 80 miles long with a wonderful hilly section around the lake itself. As you travel around the lake be sure to watch out for the screaming descents on a Wisconsin designated Rustic Rd as you exit Lake Geneva. As you continue around the lake, you will see a plethora of beautiful homes. Going out on Zenda Rd, you will travel past Melges Boat Works, a world class racing sailboat manufacturing plant. In fact, Buddy Melges won an Olympic bronze medal and mounted an America's Cup Challenge sailing the 12 meter yacht "Heart of America." Coming back is very scenic with plenty of rolling hills. There are a ton of charming stores and places to recharge along the route, especially in Lake Geneva. Traffic through the town can be pretty heavy and crowded during the peak season; watch especially for car doors and distracted vacationers. When you get to Williams Bay, keep a particular eye out for the impressive architecture of Yerkes Observatory, home to the world's largest (and now mostly obsolete) refracting astronomical telescope. Look for the large dome-there's a nice looping drive back to the site. There is also a gas station in Sharon (near an octagonal house) which is a good place to stop on both the way out, and the return.
